

## Plastic Moulds.

---

We, as a respectable manufacturer & supplier of plastic moulds have entrenched our position all over the country. These plastic moulds are being designed and manufactured using the sophisticated technology. We offer customized solutions to the clients while providing the best quality plastic moulds. Moreover, these plastic moulds are widely used in several industrial applications. The range of plastic moulds, offered by us, is inclusive of fittings, couplings, wet grinder body and many more.

### Bottom float

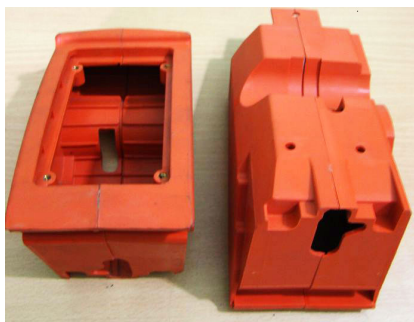

Component name :	Bottom float
Mould type :	Abs
Component weight :	1.3 kgs
Component size :	310x100

## Helical gear

Component name :	Helical gear
Material type :	Delrin
Component size :	Dia 75x15

## Fixed & pivot gib

Component name :	Fixed & pivot gib
Material type :	Nylon 30% glass
Component size :	80x100x70

## Valve housing

Component name :	Valve housing
Material type :	Fibre moulding
Component size :	Dia 500x800 height

## Y - bend

Component name :	Y - bend
Material type :	Nylon rigid
Component size :	650*400* dia180mm

## Panel plate

Component name :	Panel plate
Material type :	Nylon 30% glass
Component size :	130x80x25mm

## Coupler

Component name :	Coupler
Material type :	Pp 110 ma
Component size :	Dia 70x60 mm

## Connector

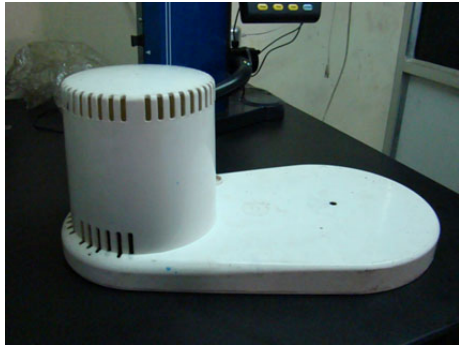

Component name :	Connector
Material type :	Pp 110 ma
Component size :	Dia 60x50 mm

## Coupling

Component name :	Coupling
Material type :	Pp
Component size :	Dia 250x120 mm

### Wet grinder body

Component name :	Wet grinder body
Material type :	Abs
Component size :	600x350x200 mm

### Float, ring, guide

### Pipe fittings
