

Industrial Nuts

We are a leading supplier and manufacturer of Industrial nuts such as Hexagon Nuts, Round Nuts, Coupling Nuts, Lock Nuts, Castle Nuts and Dom Nuts from India.

Hexagon Nuts

We are instrumental in manufacturing an extensive range of hexagon nuts, which is available in various shapes and sizes. Our clients can choose from hexagon nuts, hexagon coupling nuts, hexagon thin nuts, square nuts, hexagon castle nuts, self locking nuts and hexagon domed cap nuts. We fabricate these nuts and bolts using high quality stainless steel, duplex steel, monel, inconel, hastelloy, titanium and nickel alloy. These nuts cater to the requirements of the clients in diverse industries.

Round Nuts

We specialize in manufacturing, supplying and exporting a wide range of Round Nuts. These are widely used for securing gland plate or equipments. Precisely engineered these nuts are extensively recommended by various clients owing to its accurate dimensions, robustness and application specific construction. special notches on corners make these nuts very useful and application specific. These are admired for their robustness and durability.

Features:

- Robustness
- Longer life
- Rugged construction

Coupling Nuts

We hold expertise in manufacturing and supplying a wide range of Coupling Nuts. These are available in various range including square nuts, hexagon castle nuts, self locking nuts, hexagon nuts, hexagon coupling nuts, hexagon thin nuts and hexagon domed cap nuts. We manufacture these nuts using optimum quality components and following world class standards. Besides, these are acclaimed for their accurate dimensions, rugged construction and high functional efficiency.

Features:

- Precise designs
- Consistent performance
- Longer functional life

Castle Nuts

Counted as one of the renowned manufacturers and suppliers, we are involved in offering a wide range of Castle Nuts. These are precisely engineered using best available technologies and employing optimum quality components. Owing to its robustness, consistent performance, abrasion resistance and rugged construction, these nuts are widely used for various industrial applications. Our Castle Nuts are available at market leading rates.

Features:

- Longer functional life
- High functional efficiency
- Reasonable rates

Dome Nuts

We offer a wide range of Dome Nuts, which are fabricated using high quality steel. These are available in two varieties Mild Steel Dome Nuts and Alloy Steel Dome Nuts. Further, we offer our dome nuts in various sizes to meet the different needs of our clients.

Features:

- Corrosion Resistance
- Durable
- Reliable
- Highly Functional

Nylock Nuts

We are eminent manufacturer and suppliers of a wide assortment of Nylock Nut which are made with utmost perfection. Our advanced infrastructure allows us to design and develop these nuts precisely. The utilization of best quality raw material in the production process ensures the durability and reliability of the nylon nuts. Entire range is checked thoroughly on various quality parameters with the help of latest testing machines.

Features:

- Durability
- Reliability
- High quality
