

Storage Tanks

We are amongst the leading names in the industry design, manufacture and supply a wide range of Storage Tanks. These Storage Tanks are dimensionally accurate in nature and are sturdy in construction. Our entire product range is delivered in well-defined time frame thereby catering diverse requirements of the clients across the nation.

To cater to the various requirements of the industry, we are engaged in offering our patrons with a wide array of Storage Tanks. We use upgraded machinery and tools along with advance technology to ensure that these are able to stand tall on the requirements of our clients engaged in this industry. Moreover, we provide these tanks in different grades and sizes as per their given specifications.

Other details:-

- FRP is widely used as a construction material for chemical process equipment and storage solutions in chemical industries
- It is considered as one of the best material with attributes like resistance against corrosion
- High strength
- Light weight
- FRP storage tanks do not require any painting and are very easy to handle and easily repairable
- FRP rubber lined or HDPE FRP storage tanks can also be availed

Specifications:-

- Vertical Tanks : Ranging in diameter from 300 mm to 4000 mm and with storage capacities up to 50,000 Liters.
- Horizontal Tanks : Available in diameter ranging from 500 mm to 3500 mm Recommended to be used with suitable M.S. Support Saddles.
- Rectangular Tanks : Available in range of sizes. Recommended to be used with suitable M.S. Structure

Materials of Construction:-

We have the infrastructure and the facilities of the manufacturer of FRP Storage Tanks Using Isophthalic Polyester, Bisphenol Polyester, Vinyl Ester, Epoxy Resins and other plastics such as Polypropylene (PP), Polyvinyl Chloride (PVC). Dual Laminates using thermoplastic as liner for Chemical resistance and external FRP armour for strength are also fabricated.

Storage Tank Accessories:-

- Bolts & Gasket for top manholes
- Flat Covers for Open Top tanks
- Tank Top Handrail & Ladder with caug for Closed Top tanks
- Tank Top Platform & Ladder with caug for Closed Top tanks

Applications:-

- Hydrochloric Acid
- Sulfuric Acid
- Formalin Acid
- Sodium Hypo Chloride
- Caustic
- Enamel
- Fruit pulp & vinegar
- Treated Water
- Drinking Water

FRP Storage Tanks

Hindustan Fibre Tech storage tanks are manufactured by the Contact Molding (Hand layup) method for storage of Highly Corrosive Chemicals, Acids and Wastes. These tanks are offered as per customer's requirement complete with all the relevant accessories.

Capacity: More Than 50 KL. These cylindrical tanks can be suitable either for horizontal or vertical installations. The tanks are designed based on the application, capacity and installation, requirements. They can also be supplied in dual laminate with Thermoplastic lining. Hindustan Fibre Tech also manufactures FRP and dual laminated with thermoplastic lining. Hindustan Fibre Tech also manufactures FRP and dual laminated Storage Tanks, Day Tanks, Dosing Tanks, Pickling Tanks and more...

PP FRP Storage Tanks

Offering quality Polypropylene with fiberglass reinforced Plastic tanks (PP FRP tanks) that are an outstanding economical value when compared to conventional steel tanks. We use special grade of resins to achieve different properties. Proper reinforcement is provided according to the size shape of tanks. Any thickness and shape could be achieved as per the customer requirement.

These are used in storage of acids, alkalis, solvents and other material. Engineered with high levels of precision, these tanks are manufactured using the finest quality raw material. These are widely praised among clients for their leak proof body, enhanced durability and longer service life. Designed in compliance with international standards, these are tested on various parameters by our quality auditors in order to deliver flawless range at our clients' end. Available in standard and customized specifications, these can be availed by our clients at market leading prices.

PVC FRP Storage Tanks

We are engaged in manufacturing and supplying superior quality range of PVC Tanks. The offered range is used for storing liquids, chemicals and acids. Manufactured using supreme quality raw material and advanced techniques, these are designed in compliance with the set industry standards. Well-known for their durability, light weight and leak proof & non-corrosive nature, these are highly demanded by the clients. Also, these are tested by our quality inspectors on various parameters in order to ensure zero defects. Available in various configurations and sizes, these can be availed by our clients' at the most reasonable prices.
