

Pipes & Fittings

Hindustan Fibre Tech Corrosion resistant Fibre Glass Reinforced Plastic Composite Pipes meet the demanding needs of industry to transport corrosive and non-corrosive fluids for various applications including Oil and Gas, Petrochemical, Power Generation, Desalination, Potable Water, Municipal and General Industries. Hindustan Fibre Tech composite pipes provide superior corrosion resistance, high mechanical and physical properties as well as the ease of handling, transportation and installation when compared to traditional materials.

We are counted among the prominent manufacturers and suppliers of a extensive range of FRP Pipes and Fittings. In order to provide our clients with the premium quality product, the manufacturing process is properly guided and surveillance by the excellent team of skilled and experienced experts.

Materials of Construction:-

We have the infrastructure and the facilities of the manufacturer of FRP Pipes & Fittings Using Isophthalic Polyester, Bisphenol Polyester, Vinyl Ester, Epoxy Resins and other plastics such as Polypropylene (PP), Polyvinyl Chloride (PVC). Dual Laminates using thermoplastic as liner for Chemical resistance and external FRP armour for strength are also fabricated.

Feature:-

- Corrosion Resistance
- Are UV resistant
- Have zero maintenance costs
- Have low life-cycle costs
- Are durable and corrosion resistant

FRP Pipes & Fittings:-

Our clients can avail from us premium quality FRP Pipes & Fittings. Available in various specifications, these products are fabricated utilizing quality-approved raw material and other basic components that are sourced from accredited vendors of the industry. These premium quality products are available in reasonable rates as per clients' specifications and requirement.

Our huge product range also includes a wide array of FRP Pipes & Fittings that is one of the most popular product in the industry. Manufactured from raw material that is the best in the industry, these products are highly tensile and robust in construction. We have tested these products as per the international standards of quality to ensure better performance without any flaws. Customizing these products as per the needs and requirements of the clients is one of our special forte.

PP-FRP Pipes & Fittings:-

We are counted amongst the leading names in the industry, offering an extensive range of Walkway Gratings that are manufactured using quality assured raw components and latest technologies. We offer them in different sizes and thicknesses and can be customized as per the requirement of our clients. These products have high tensile strength and are dimensionally accurate in nature. Moreover, we offer them at most affordable rates.

PVC-FRP Pipes & Fittings:-

We are counted among the prominent manufacturers and suppliers of a exclusive range of PVC-FRP Pipes & Fittings in the market. These products are manufactured using top-grade quality raw material, which is procured from the most reliable and authentic vendors in the market. Products we offer are fabricated using machines of advanced technology. These products are highly demanded and appreciated by our patrons due to its high performance and durability factors. These products are available at reasonable price.

Keeping in mind the diverse requirements of our clients, we offer our clients a comprehensive range of PVC-FRP Pipes & Fittings that have high strength and are leak proof in nature. We offer the entire product range in different diameters and thicknesses and can be customized as per the requirement of our clients. They are easy to install and are performance based. Furthermore, we offer them at most affordable rates.
