

# Oxygen Concentrator

We are Leading Suppliers In OXYMED Oxygen Concentrator

## Product Description:

Improved Longevity: 2 built in fans that ensures the compressor is cooled for prolong life. With no rebuilding / replacement of compressor for 5 years\*, it ensures lowest 'Total Life Cost' of the product. Visual and audible alarms for low oxygen concentration, low pressure, power failure and service warning. The latest Oxymed oxygen concentrator is designed and assembled to meet the growing demand and cost contest faced by service providers. Oxymed delivers more than 5 liters per minute with high oxygen concentration across all

## Features:

- Inbuilt Nebulizer
- PSA ( Pressure Swing Adsorption technology)
- Large LCD display ( Total hour count with timer )
- Alarms for Low concentration, Low pressure,
- Power failure and Service warning Unique Push type Humidifier Bottle.
- Unrivald industrial design CE, FDA, ISO 9001:2015 & ISO 13485:2003

Certified.

- Only machine with Dual Filters. Humidity Filter & HEPA Filter

## SPECIFICATIONS

- Dimensions 13.4 in. W×11.8 in. D×25.6 in. H (34 cm W×30 cm D×65 cm H)
- Weight 41.9 lbs (19 kg)
- Flow Specifications 1 LPM-5 LPM
- Oxygen Concentration 93% (+3%, -3%)
- Voltage AC220V/50Hz Power Consumption 350 Watts Sound < 50dB(A)
- Environmental Limit Conditions Operating Conditions: 5°C to 55 °C Storage: -20°C to 60°C
- Tested for high altitudes
