

Oxymed Finger tip pulse oxymeter

The Oxymed Pulse Oximeter is a great addition to the line of pulse oximeters. Its compact design allows it to be used for adult applications in many different areas such as hospital, homecare and EMS. This innovative technology is an excellent source for the inexpensive, accurate pulse oximeter that you've been looking for. The oximeter is equipped with a new, high-tech, colour display known as an 'organic' LED (OLED). It provides real-time data on your heart rate and blood-oxygen saturation level (SpO2). In 6 seconds, the oximeter shuts down when you remove your finger with the auto-power off feature. The kit also includes a convenient yet stylish carrying case to add a dash of dynamism to your medical expertise.

Features:

- Small, compact, simple, reliable and durable physiological monitoring device.
- Low power consumption with battery-low indicator.
- Dual color OLED displays SpO2, PR, pulse bar and waveform.
- Optional multi-color silicon rubber boot and carrying case.
- Automatically power off and requires 2 AAA alkaline batteries.

Specifications:

- Battery-Powered
- Dimension: 5.8 x 3.2 x 3.4 cm
- Weight: 99.8g
