Surya Water Heater
Tried. Tested. Trusted.

www.surya.co.in

At Surya, 4 decades of unwavering customer trust helps us in leveraging excellence in operations, manufacturing and business management. Our obsession with perfection finds expression in a relentless drive for improvement in processes, products, innovation which has helped us sustain growth and consistently introduce new products, including electrical home appliances such as Water Heaters.

All our home appliances, including Water Heaters use innovative technologies to make life easier for our customers. The Appliances are user-friendly and delight of every value-conscious homemaker.

Surya Water Heaters come with the assurance of durability, ability to withstand hard water, energy savings, pressure withstanding capacity and reliable safety features... all backed by prompt and efficient after-sales service.

Our Water Heater range carries star ratings which help reduce electricity bills. These product offerings are backed by a reassuring warranty of 5-7 years on the inner tank and 2 years warranty on electrical components.

Surya Water Heaters. Get the best of efficiency, price, performance, elegance, design and innovation. Transform your bathing experience into sheer delight. Bring one home today.

SURYA
Energising Lifestyles

Vitreous Enamel Coated Tank (Glasslined)
All models are equipped with ultimate protection against rust and corrosion. Blue Diamond layer provides several times resistance against corrosion as compared to standard inner tank designs.

Heavy Gauge Tank
Made by ultra thick super cold-rolled steel plate with 2mm thickness.

High Quality Incloy 800 Heating Element
Offers superior heating performance with extended life span and minimum energy losses. Compared to regular stainless steel heating element, it offers a stronger resistance to both acid and alkaline substance, also it has better longevity and better tolerance to rust and scale formation.

Triple Power Input
The TPI design is currently available with power input combinations I/II/III, helps to reduce electricity bill up to 75%.

Multi Functional Safety Valve
For complete safety.

Extra Heavy Duty Anode Rod
Ensures no scaling thus enhancing life of element and tank.

Energy Saving High Density Foam (PUF) Insulation
CFC free, complete protection design against radiant heat loss (upto 25mm thickness, 25% thicker than normal insulation design) .

Water Tubes with Whirlflow
The whirlflow ensures no immediate direct contact between cold & hot water for a faster heating and maximum energy saving effect.

Thermostat
Cuts off electrical power to guarantee safety and energy savings. Allows temperature setting between 25°C -75°C.

External Temperature Meter
Provides clear temperature indication.

IPX4
Splash - proof from all sides, hence protection against water.

Vitreous Enamel Coated Tank
corrosion and rust-proof

Heavy Gauge Tank
long lasting

High Quality Incloy 800 Enameled Heating Element
efficient, effective heating

Triple Power input
reduces electricity bills

Heavy Duty Anode Rod
no scaling. more effective

WATER HEATER

Metal Body /Glasslined Series

- Metal body
- 5 star rating
- IPX4 - splash proofing
- Heavy gauge tank for long lasting
- Thermal cutout completely safe
- Triple power input reduces electricity bills
- 8 bar rated pressure suitable for hi-rise buildings
- Multi-functional safety valve added safety system
- Heavy duty anode rod no scaling, longer life of tank
- Vitreous enamel coated tank corrosion and rust-proof
- Water tubes with whirlflow technology, energy saver, maintains heat
- Energy saving high density foam (PUF) insulation keeps water hot for longer time
