

Paper Cups

Our company is fast gaining popularity as the leading manufacturer and supplier of PE Coated Paper Cups. An advanced version of Coated Paper Cup with single coated sides is offered by us at market leading rates. Our experts design these products in compliance with the defined parameters of quality, by ensuring zero-defect in them. Our state-of- the-art infrastructure always plays the prominent role in fulfilling the bulk customer's demands in best possible manner.

Usage

These cups are used for both hot and cold beverages. In addition to this, these are quality oriented and require least maintenance. Apart from this, these are available at reasonable prices. To manufacture these paper cups, our professionals use the best quality paper. These cups are made out of paper and are lined with plastic or wax to prevent liquid from leaking out or soaking through the paper.

Being a client-centric entity, we provide these paper cups in various sizes as per diverse information provided by our clients. Offered superior quality array is mostly demanded in parties for serving coffee, tea and other beverages. All types of printings like single to four colors are available.
