

Rubber Extruded Products

Silicone sponge extruded products

we are manufacturer of all silicone sponge extruded products, silicone sponge extrusions for use as gaskets and seals under low closure loads in accordance with AMS specifications. Silicone sponge extrusions are manufactured mainly in a closed cell structure enclosed by a surface skin which permits very low water absorption. They offer excellent thermal insulation properties and remain functional within a temperature

Silicone Braided Hose

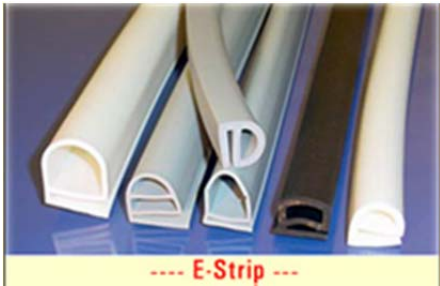

We are a renowned Manufacturer and Supplier of Silicone Braided Hose, which is manufactured in conformation to industrial standards that ensure excellent flexibility and longer life. Silicone Braided Hose is offered by us in different dimensions and specifications that cater to the various industrial requirements. Raw material used Medical / food grade transparent silicon rubber which complies with USP class VI requirement & FDA 21 CFR 177.2600 Range from 0.5mm ID to 50mm ID Applications Engineering industries Pharmaceutical industries Automobile industries Chemical industries

Hard Rubber & Soft Profiles

A Thermoset Elastomer having very good process ability and when vulcanized offer excellent physical properties such as Compression set resistance, excellent resistance to cracking,

Good U.V. Stability, Good low temperature flexibility and excellent resistance to moisture and steam. EPDM is one of the most versatile specialty polymers in commercial use today. Application Areas: Architectural Building Profiles. Bus Body Building Profiles. Container Seals. Railways. Engineering. Solar Water Heaters.

Silicone Rubber Extruded Profiles

We offer rubber extruded profile products which are extensively used in pharmaceutical, Medical, Textile, Agriculture and allied industries. Sourced from reliable vendors, we use high quality of raw material in the production of our gamut. We also offer customized packaging of our product from: Paper boxes Braided bags Plastic bags Furthermore, it can be easily customized in compliance with client necessity and is delivered within stipulated time frame.

Silicone Soft Gaskets

We are the leading manufacturer and supplier of Silicone Soft Gasket. These gaskets are the ideal choice for use in production facilities of fine pharmaceutical, biotechnology, high-purity water, injectables, food and beverage products, platinum cured silicone seals withstand temperature extremes, radiation, corona, moisture and steam. These are made from high quality raw materials that are consequently strong, leak-proof and are able to withstand under high compressive loads. These gaskets are highly demanded by our clients for their easy usage and low maintenance. Offered rubber gaskets are available in various sizes to meet the demands of our valued customers.
