Picture Tube Plants

We manufacture and supply expertly fabricated special purpose machines which cater to the picture tube manufacturing industry. The machineries manufactured by us include:

Washing Machine

Sealing Machine

Conveyors

Dryers

I.T.C. Conveyers

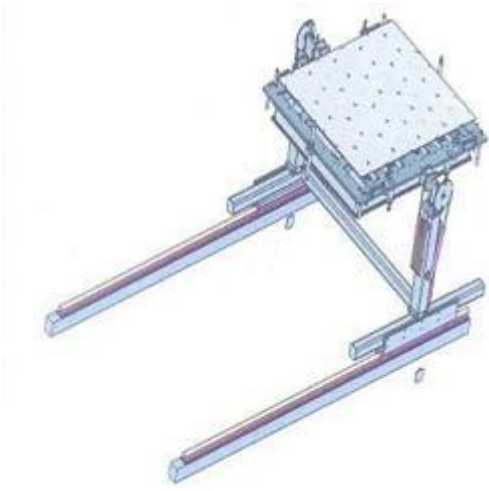

Polishing Machine & Grinding Machine

Cutting Machine

Jig & Fixture

Machine for Individual Functions

Solar Panel Plant

The machines manufactured by us are extensively used by the CD and photo voltaic plants. Fabricated out of tough durable materials the machines are geared for high performance and extended life. The machinery we supply to CD / Photo Voltaic Plants consists of:

Primary Mirror Tool

Glass assembly

SM Template

SEcondary Mirror Assembly Tool

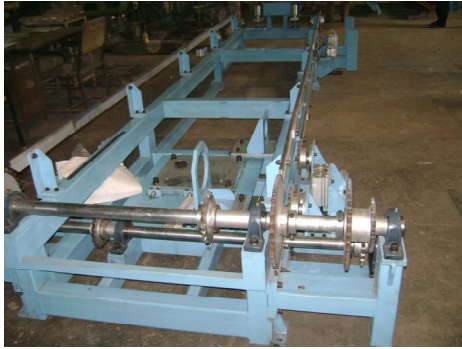

Machine for Individual Function

Conveyors

Lifter

Pick & Places

Auto Industry

The automotive industry is one of the largest consumers of our special purpose machines. Designed to support and enhance all production processes, these machines are efficient and very durable due to their precise construction and design:

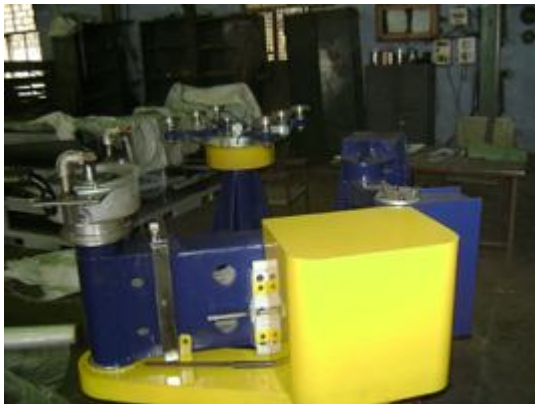

Ultra Sonic Machine & Cleaning Machine

Drying Zones

Conveyors

Machine for Individual Function

Glass Plant

Our special purpose machines greatly enhance the productivity of glass manufacturing industries. We specialize in making machines for glass plants which are durable and efficient. The machinery we supply to glass plants consists of:

Washing and Dryer Zone
