

# Industrial Scale

## CORE FEATURES

**PRIME INSTRUMENTS** is dedicated to serve Best Quality, User Friendly and Reliable Electronic Weighing Scales by applying most Advance Technology at Reasonable Price.

- Indigenous Development
- ABS / Metal / SS body as per requirement
- Overload Protection
- Weather & Water proof Membrane Tactile Keyboard
- Approved by weights and measurement dept. govt. of india
- In Built battery back up & low power consumption.

## TECHNICAL PARAMETERS

- Weather & Water proof sophisticated tactile keyboard.
- Approved by Weight & Measurement Dept. Govt. of India.
- 12 to 15 w Power consumption.
- 230 V  $\pm$  10% 50 Hz volts AC.
- Operating Temperature Range 0°C to 50°C.

## OPTIONS

- Extra/Remote Display
- Printer/RS 232 Interface.

## FEATURES:

- All Steel construction with industrial Powder Coating.
- PIPE, ANGLE or "C" CHANNEL Based Platform Structure.
- High Precision ADI ARTECH (USA) Make Load Cell.
- Sturdy MS square pipe structure provides equal Load distribution.
- High Resolution Load Cell with Over Load stoppers and Transport Protection.
- Large LED Display with a optional of remote display.
- Counting mode, percentage weighing, Wt accumulation.
- Platter construction options can be SS/MS Checkered.
- 220V AC/built-in 6V rechargeable battery 50hrs backup.
- Available in Single load cell and 4 load cell design.
- 150% Overload protection.
- Options : RS-232 interface for computer interfacing.
- Options : Printer output for direct printing on printer.
- Options : Wireless Weighing Indicators
- Options : Attach or Loose Pole for Indicator
