

Jaw Crusher

" Friends " Jaw Crusher (Double And Single Toggle)

Jaw Crusher mainly use as Primary Crusher . The utility of Jaw Crusher is wide, more or less in all fields of mineral crushing plant, Jaw Crusher is an essential Crusher to crush any Boulder (may be mines or may be river Boulder.)

Friends Engineering Works manufacture and supplied lot of different sizes of Jaw Crusher for crushing coal , river Gravel, Stone, Feldspar, Lignite, Lime Stone, Quartz and all type of ore materials. We take responsibility to manufacture suitable Jaw Crusher as per required specifications of users .

we manufacture Jaw Crusher for Laboratory and industrial uses both. For laboratory testing and analyzing purpose, those who related with any minerals testing Lab. Model. Jaw Crusher must be used for crushing and gradation of any useable minerals whose utility is vast for Industrial purpose. We design and manufacture Single Toggle and double Toggle JAW CRUSHER. Even our manufactured Jaw Crusher may be used to crush coal for Stoker Boiler. Friends Engineering Works manufacture different sizes of JAW CRUSHER , with application of minimum Power consumption and incurring negligible maintenance overhead. Following sizes are being manufactured by us.

NOTE: Capacity based on characteristics of material and also selection of Power Rating and how much moisture in crushable materials.
