

Air Classifier

Enabled with high volume hopper Works on the principle of terminal velocity principal
Ideally suited for the separation of hulls, husks and the fibers.

Product Details

Automatic Grade	Automatic
Material	Mild Steel, Stainless Steel
Frequency	50 Hz
Power Source	Electric
Application	Industrial Use
Finishing	Paint Coated
Rust Proof	Yes

Phase	Single
-------	--------

Features:

- Enabled with high volume hopper
- Works on the principle of terminal velocity principal
- Ideally suited for the separation of hulls, husks and the fibers.
