

FRP Chimneys

For over 20 years, we at Plast-O-Fibre & Fibrograts have been expertly designing, fabricating, manufacturing and installing FRP Chimneys & PP-FRP Chimneys for corrosive applications. Industries such as thermal power plants, fertilizer industries, Pulp & Paper, Metals & Mining, Chemical Processing FRP Chimneys/ PP-FRP Chimneys in process systems in which FRP has superior corrosion resistance over metal chimneys. These FRP Chimneys & PP-FRP Chimneys are more economical & lighter in weight than metallic stacks. We also supply ducts required at inlet & outlet of stack.

We can supply stacks up to heights of 100m & for temperatures upto 200 deg C.
