

Electronic Weighbridge

Tulaman has pioneered and manufactured India's first electronic weighbridges. The robust, fully welded monolithic and sleek structured make Tulaman's weighbridges accurate, durable & reliable. Tulaman manufactures both Pit / Pit less weighbridges and various capacities and sizes accuracies. Tulaman has the distinction awarded the class two high accuracy from Bangalore for weighbridge. We customize weighbridges to suit the various requirements of our esteemed clients.

Note: Tulaman factory trained engineers provide professional installation and preventative maintenance for smooth and reliable functioning of the weighbridges. We offered automation for existing or new weighbridges.
