

Gangsaw Segments

Our company abides by all the standard Industrial protocols thereby, producing high-rated and versatile Gangsaw tools and marble cutting tools which further enables the production of other standard products. We have been leveraging multi-layer technology since 2008; we are the largest manufacturer and distributor of Gangsaw segment PAN India. We have also successfully penetrated the world market by developing tools for processing stones like Italian, Turkish, Egyptian, Vietnam and Green that comes at affordable price.

We have been engaged in offering a wide range of qualitative Gangsaw Segment. These high performing diamond segments for stones are tremendously valued by our customers over the world for their great quality and are broadly utilized for different cutting applications. The segments are fabricated utilizing the ideal quality raw material in consistent with the set mechanical standards.

Vinayak Diamond Tools pioneered the use of Sandwich Technology in gangsaw segments, and has used it to develop high performance products since 2008. Our expertise lies in developing personalized tools matching the customer needs.

Our service team provides complete consultancy related to right tools selection and Blade pitch selection. We have a dedicated team of Engineers to serve our customers

For Indian Marble, Sandstone & Granite

Segment Dimension (MM)

- 20*3.30*10
- 20*3.50*10
- 20*3.80*10

- 20*4.20*10
- 20*4.50*10
- 20*5.00*10
- 20*5.50*10
- 23/20*3.50*10
- 23/20*3.80*10
- 23/20*4.20*10
- 23/20*4.50*10
- 23/20*5.00*10
- 23/20*5.50*10

For Imported Marble – Italian, Turkish, Egyptian, Vietnam and Green

Segment Dimension (MM)

- 20*2.80*9
- 20*3.00*9
- 20*3.50*9
- 20*3.80*9
- 20*4.20*9
- 20*4.50*9
- 20*5.00*9
- 20*5.50*9
