

Brushless Screwdriver

We offer Eco-friendly **electric screwdriver** with in-built brushless motors in a transformer less profile for long term production use. **Delvo (Japan) electric screwdrivers** are high performance tools for automobile and electronic industry as they provide efficient and precise screwing functions. The screwdrivers supplied by us have these main features:

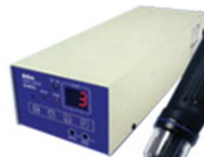

- 6mm screw capacity with 0.05 to 7Nm torque range
- Ergonomic straight and pistol grip for easy operation.
- AC and DC available with screw count torque feedback systems
- can be offered with once ESD(Anti-Static)Housing required.

Long-life Brushless Motors.

Wide torque range from 0.4 to 7.0Nm
with free speed 650, 1,200 or 2,000 min⁻¹
(Speed adjustable)

With universal
input voltage
from 100 to 240 V AC

The newly designed clutch
mechanism offers precise
torque repeatability over
sustained periods of use.

Incorporates Long-life Brushless Motors.

Specifications

Model	Series	DLV 30 Series			DLV 45 series		DLV 70 Series
	Lever start	DLV 30LL-IKE	DLV 30LL-IKE	DLV 30 HL-IKE	DLV45LL-IKE	DLV45 SL IKE	DLV 70LL-IKE
	Push to start	DLV 30LP-IKE	DLV 30SP-IKE	DLV 30HP-IKE	DLV 45LP-IKE	DLV45 SP-IKE	DLV 70LP-IKE
Input voltage		40V DC					
Torque adjustment (Nm)	Low Torque Spring(Standard Accessory)	0.4 to 1.6			2.0 to 4.5		3.8 to 7.0
	High Torque Spring(Built in)	1.2 to 3.0					
Adjustable speed range (rpm)		390-650	720-1200	1200-2000	390-650	720-1200	1200-2000
Adjustable Soft Start Time (sec)		0-2					
Free Speed at Soft start (rpm)		260	480	800	200	480	260
Screw Size (mm)	Machine Screw	2.6 to 5.0			4.5 to 6.0		5.0 to 8.0
	Tapping Screw	2.5 to 4.0			4.0 to 5.0		4.5 to 6.0
Mass (g)		720			870		
Standard Accessories		Bit No.2 x7 x 75 : 1PC Suspension Ball: 1 PC Low Torque Spring : 1 pc.					

* Values are obtainable in combination with control unit DLR70S-WGB or DLR70S-WGB
*UE types for 5 mm tex. bit are available on request.
