

Gusseted Bags

New in the market, the gusseted bags are the ones that are used to pack the bulky items like candies, nuts, bread, marbles and more. These gusseted bags are laminated to add strength to the packaging material. There are a large variety of gusseted bags that prevents food prevention and release of scent. It also gives the customers a pleasure to see the food item they are buying. The PP woven fabric gusseted bag has the immense holding strength and ability to protect the food items from UV protection. To know more, write to us.
