

Oven Machine

About Closed Type Oven Machine

Neelam Fabricators is Manufacturing and Exporting Rotomoulding Machine with the other plastic machine like Oven machine, Closed Oven Machine, Tank Making Oven, Box Machine, Water Tank Oven Machine, Plastic Machine and Rotomoulding Machine

- NFOVEN 500 x 2
- NFOVEN 1000 x 2
- NFOVEN 500 x 4

Technical Features

- Oven heated by LPG by shifting nozzle and gas firing system.
- Centrifugal blower run by fractional HP, TEFC Motor to provide air for consumption of the gas.
- High Voltage Transformer To Ignite Pilot Burner.
- Control panel with controls and switchgear available on mild steel.
- Less installation area.
- Lowest maintenance cost.

Salient Features Of Oven Machine

- Lowest fuel consumption.
- Gives even thickness.
- Easy to operate.
- Gas fired system with fully automatic protection controller.
- Lowest maintenance cost.
- User friendly option.
- Less installation area.
