

Chain Sling

The specialized manufacturer and supplier of alloy steel chain slings available in various configurations like single leg, multiple leg and adjustable leg has created a niche in the competitive market for its quality products. Our single leg chain slings, multiple leg chain slings and adjustable leg chain slings are provided with various end fittings as per specific requirements of buyers.

All the chain slings offered by us are flexible, durable and long lasting, collapsible for easy storage and resistant to high temperatures or rugged conditions. These slings are supplied with test certificate from government approved test house for proof load & safe working load as per IS specifications.
