

Stirrer / Agitators

Grace [™] [Rangoli] is a leader in the field of design, manufacture, testing and supply of various types of Agitators for mixing of liquid-liquid and liquid-solid. Grace [™] [Rangoli] has the privilege of supplying critical Agitators to different process industries.

We can design, manufacture and supply of Peddle, Propeller, Curved Turbine, Pitched Turbine, Anchor and Cowl types agitators for specialized applications suited to process and operating conditions.

Material of Construction can be offered in various grades of thermo plastics such as PP. & HDPE. We also provide carbon Steel agitators with special type of coating and linings including, PP., PPH., HDPE. & PVDF.

Pp. Peddle Stirrer / Agitator

- World's largest pp.peddle agitator
- Mixing capacity 1,20,000 ltr.
- Mixing material solid & liquid (dyes)
- Material density 1.1 to 1.9
- Agitator RPM 40 to 90.
