

Bar

Hot rolled or cold drawn? Round, flat, square, hexagonal or octagonal? Our principals cover most requirements. Further more we can offer additional operations such as turning, grinding, polishing, chamfering, ultrasonic and crack testing. Tolerances down to ISO 5 are offered. Common steel grades are freecutting steels, carbon steels, direct hardening steels, case hardening steels, spring steels, tool steels, high speed steels and stainless steels, but we also supply special materials such as Ni-base alloys, Co-Cr-alloys, titanium and titanium alloys.

Cold drawn bar

Precision bar

Powder metallurgic steel

Bright turned bar

Hot rolled bar
