

## Water Heater

We manufacture, export and supply highly demanded Water Heaters. These Water Heaters are precision engineered and are manufactured as per the industry norms. Our Water Heaters are high performing and easy to operate. We offer our Water Heaters at affordable prices.

### Operation

Onyx water heater extracts heat from the surrounding air and releases it to the water, resulting in heating water. A small amount of energy is involved in the process.

It is transferring of renewable energy and not converting electrical to heat energy.

### Salient Features

Uses Renewable Energy

Eco- Friendly

Saves up to 75% on Electric Energy

Compact and occupies less floor area

Easy to install anywhere

Neither Sunlight nor LPG required

Use anytime of the day during any season

High Standard of Quality

**Advantage :** It is the only one of its kind which produces cool air that can be used, if required.

## Specifications

Model	Onyx	02 -100
Tank Size	Lift	100
Heating capacity	Kcal/hr	6000-7700
Heating capacity	Kw	7-9
Electrical consumption	Kw	2
Operating C.O.P		3.5 - 4.5
Voltage	Volts	230
Phase		Single
Frequency	Hz	50
Ambient Temp. range	°C	-5 to 50
Max Water temp.	°C	60
Temp. Display		digital
Max. Water Pressure	kg/cm2	7.5
Water connections	mm BSP	15
Overall diameter	mm	570
Overall Height	mm	1565
Dry Weight	Kgs	125
Operating Weight	Kgs	225
