## QUICK COUPLERS & SMART ATTACHMENTS

**Increase your Excavator versatility:**

Build Aids Hydraulic BKQ quick couplers allow you to rapidly and safely increase the versatility of your excavator. Change easily from one attachment to another! In no time replace your bucket and mount a ripper or a breaker! BA Hydraulic quick couplers help you in productivity, efficiency and safety.

CE ISO 9001 : 2000 ISO 14001 : 2000

Hydraulic Quick Coupler

Smart Attachements

•Multi grapple (KTMG)

Available excavator range 0.8 ~ 80ton  
Easy to operate

- Unique quick-connect mechanism and easy control as a bucket enables easy and simple operation to any users.
- Its wide unfold width and narrow close width can graph from fragile to extra-heavy objects.

Simple = Durable

Designed to quickly attached and released when incorporated with Kangto Quick Coupler and its simple design with no additional hydraulic structure reduces maintenance time and cost.

•Plate compactor (KTC)

Available excavator range 0.8 ~ 80ton  
Easy to operate

Unique design for maximum efficiency

It's designed for optimum performance and durability. The angle between rubber damper and vibrating plate maximizes pressure to the soil and that minimizes stress to the rubber as well as the machine.

Guaranteed quality by best components

All the metal parts welded by Kangto's professionals and Permco hydraulic motor guarantee great quality and long lifetime of compactor.

Engineering design with user friendly mind

Its narrow upper structure allows ideal lateral freedom of movement. Hydraulic fast coupling system enables easy and fast installation and operation.

•Ripper (KTR)

Available excavator range 0.8 ~ 80ton  
Easy to operate

Powerful ripping with minimum stress to excavator

- Its robust design is focused to perform maximum productivity.
- Its most suitable angle design increases ripping power and reduces stress on excavator.

Proven durability

Extra high strength steel and minimum number of welding seams increases durability most stress parts are harden treated.

Multi Grapple Range (KTMG)	
KTMG200	0.8 ~6
KTMG300	7-12
KTMG600	13-17
KTMG800	18-23
KTMG1000	24-33
KTMG1400	34-44
KTMG1700	45-52

Compactor Range (KTC)	
KTC300	5-8
KTC600	11-14
KTC800	17-22
KTC1000	23-30

Ripper Range (KTR)	
KTR200	0.8 ~6
KTR300	7-12
KTR600	13-17
KTR800	18-23
KTR1000	24-33
KTR1400	34-44
KTR1700	45-52

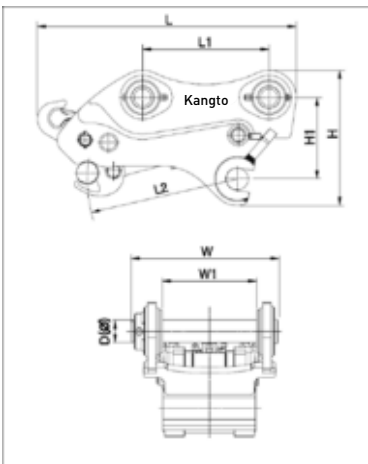

The most advanced choice for hydraulic quick coupler

The most advanced quick coupler imported from Korea

Kangto was the first to produce hydraulic quick coupler in Korea in 1993. The design of Kangto's quick coupler comprises the long R&D and production experience.

Best performance at minimum cost

Its compact size with enhanced cylinder and welding structure reduces stress and increases lifetime of the coupler.

OEM quality

Kangto is an OEM supplier to the world known producers of excavators and construction equipment like Doosan, Kobelco etc. Our products satisfy the world's highest standard.
