

# Handy Vibrators

## Description

Auto Lift Concrete Mixer With Diesel Generator Driven by vision to achieve significant growth in the industry, we are engaged in manufacturing a wide range of Concrete Mixer Machine With Lift. Product description We use high quality raw material that is quality tested to ensure its process worthiness. This machine is specially designed for large scale concrete mixing .This machine is manufactured with heavy duty chassis and sumo tyres.

## Salient Features

- High Load Bearing strength
- Robust Construction
- High Performance
- Less Maintenance
- User Friendly
- Long Service life

## Technical Specifications

Bucket Capacity	10/7
Power Source	Diesel Engine

Automatic Grade	Automatic
Speed of Mixing Drum	13r/min
Output Capacity	560 Liters
