

# Vacuum Lifters

We have long been looking for new products that suit our customers and meet their and our high quality standards. At German WIMAG we know we found what we were looking for. From WIMAG's wide range of high-quality vacuum lifts, we have selected a number of stone and flat lifts that make it easier for all types of ground and stone work. We can offer both stone magnets for mechanical lifting and manual lifting gear with different types of vacuum technology. Read more about our vacuum lifts and about vacuum technology below or click on to the different models.
