

Pulveriser Machine

We manufacture Pulveriser Machine, which is used for any commercial purpose or for the small business purpose. It is the best and ideal for grinding masala and herbal product like turmeric, chili, coriander, black pepper, dried ginger, cinnamon, fennel, sage, clove, allspice, laurel, white pepper, red pepper, oregano, garlic, cumin, basil, star anise, cumin seeds, cardamom, sage, thyme, dill, basil, mint, garlic, bay, sage, oregano, rosemary parsley, amchur (amchoor), emblic (amla). Blower Pulveriser Machine is having best quality blades last for an extensive span of period.

FEATURES OF MACHINE:

Power: 2HP - 5HP

Body: Staineless Steel

Frame: Staineless Steel

These are used for multipurpose.

Carry out the work in more efficient and speedy way.

We use latest grinding mechanisms in all these machines.

We use Stainless steel blade SS304, which is the most versatile of all other steel.

It also possesses a very good low-temperature property.

Responds well at hardening due to cold working.
