

# Flowmeter

- Flowmeters for all types of applications, ranging from clean rooms to electronics manufacturing down to mines and heavy industry
- They can be offered in many different materials from cast iron to special plastics
- Some flowmeters can handle viscosity up to 500,000 cP
- The flow area ranges from parts of liters / hour to 1,880 m<sup>3</sup> / min
- Available for working pressures up to 480 bar

Turbine Flow Meters

Badger ModMAG Inductive flowmeter

Gear Gauges

Badger Oval wheel gauge

Vippskivmätare

LC Rotometer

Mass flowmeter for liquids & gases

Vaf Lamell flowmeter

Hedland Nitrogen Meters

Force Screw Meter SVC

Dynasonics Ultrasonic Meter

Other flow meters
