

# Cone Crusher

## Technical Details

**Royal Cone Crusher** designed for high crushing ratio, high production efficiency with higher capacity. The product made from cone is of better product shape. Low operational cost per ton of production and also ease of operate. Our cone is well suitable for mobile as well static crushing unit. Machinery available in semi-automatic & fully automatic panel synchronization. Configure for secondary & tertiary crushing.

**Available cone series are :** Symons series cone , Single hydraulic cylinder cone , Multi hydraulic cylinder cone

## Sizes & Capacity

- **Model Range :** RCC 100 To RCC 300
- **Feed Capacity :** From 100 Ton Per Hour To 300 Ton Per Hour
- **Feed Size Up To :** 250 MM For Secondary Crushing.\*
- **Also Available In Skid Based & Wheel / Track Mounted Mobile Arrangement.**

## Salient Features & Parts Detail :

- Heavy Duty Casted Machine Body
- High Graded Manganese Concave & Mantle
- Highly Precise Shaft
- Accurate Bevel Gear Arrangement.
- Hydraulic CSS Gap Adjustment System
- Automatic Tramp Release System.\*
