

# Roller Crusher

## Technical details:

**Royal Roll Crusher** is widely used in medium and fine grinding processes to develop fine grain and low dust. The crusher is available for feeding raw, secondary raw materials and by-products like coal, rock, coke duff, garnet, refractory, fireclay, fertilizer, salt, etc.

The uniform output grain size is affected by the gap width between the rolls. In order to alter the gap width and to compensate wear and tear, one of the two crushing rolls is designed as a loose roll, [Oil Crusher Machine Manufacturer](#). The adjustment is done mechanically or hydraulically. Overload or jerk protection is integrated additionally.

## Sizes & Capacity:

- **Machine Sizes** : Ø 350 X 350 MM To Ø 1200 X 2000 MM
- **Model Range** : RRC 3535 To RRC 120200
- **Feed Capacity** : From 2 Ton Per Hour To 150 Ton Per Hour
- **Also Available In Skid Based & Wheel / Track Mounted Mobile Arrangement.**

## Salient Features & Parts Detail:

- Heavy Duty Well Casted & Machined Roll
- Perfect Housing
- Durable Double Motors
- Adjustable Output Gap Setting

We are the leading **Roller Crusher manufacturer** in India. The best quality **raw crusher** is manufactured by making use of the superior quality raw materials. Kindly contact us for more details, as we are the foremost **crusher turnkey plant supplier**, [Jaw Crusher Manufacturer](#) in Gujarat and the roller crusher supplier in **Delhi, Uttar Pradesh, Rajasthan, Madhya Pradesh, Maharashtra, Tamil Nadu, Andhra Pradesh**, etc. The royal's roller crusher exporter in foreign countries like **USA, UK, Europe, Sri Lanka, Bangladesh, Afghanistan, Africa, Australia**, etc.

24\*7 customer supports are provided by us as our customers are from the different part of the world. We are providing the huge range of the crushing plant that also at an affordable price. One stop solution for the different crushing plant are provided by us.
