

## Check Valves

We are the leading manufacturers, suppliers and exporters of wide range of Check Valve that is a mechanical device, a valve that normally allows fluid (liquid/gas) to flow through it in only one direction. Further, these are fabricated from superior quality raw material that is procured from the reliable vendors of the industries. Although they are available in a wide range of sizes and costs, yet these check valves are very small, simple, and cheap.

### Disc Check Valve

- Material IC
- Type IC DCV Non Slam
- Brand Racer
