

Special Features :

- Robust & strong in construction.
- Unique design of Bearing Housing.
- Efficient cooling for Stationary disc provide with water circulation pump.
- Low residence time means lower thermal stress on the process material.
- Low power consumption with high output, so economical & cost effective.
- Long service life of the discs between re-sharpening and replacements.
- Low maintainance with consistent output quality.
- One Piece Grinding Disc made from Graded Alloy Steel.
- Fast and easy replacement and adjustment of Fixed and Rotating Discs.
- Limit switch is integrated with Mill door to prevent accidental re-start of the motor when the door is opened.
- Easy to clean.

Model	PPU-100	PPU -150	PPU -200	PPU -300
Disc Diameter	300mm	300mm	400mm	400mm
Main Motor Ac	15Kw	22.5Kw	30Kw	56.25Kw
Blower Motor	1.5Kw	2.25Kw	3.75Kw	9.375Kw
Air Lock Motor	0.37Kw	0.37Kw	0.75Kw	1.5Kw
Vibrating screen	0.37Kw	0.37Kw	1.0Kw	1.5Kw
Total Load	17.60Kw	27.75KW	36Kw	69.375Kw
Floor Space (Length)	2200mm	2200mm	2400mm	3375mm
Width	1400mm	1400mm	1600mm	2025mm
Height	3100mm	3100mm	4000mm	4500mm
Feed Size	7-8mm	7-8mm	7-8mm	7-8mm
Mesh Size	18mesh	18mesh	18mesh	18mesh
Output	80-100Kg/Hr	140-160Kg/Hr	175-200Kg/Hr	300-350Kg/Hr
