

# Pre Cleaner

## Product Details

Voltage  
**220V**

Condition  
**New**

Power  
**1-3kw**

Driven Type  
**Electric**

Minimum Order Quantity  
**As per Customer Demand**

During the pre-cleaning process, undesirable elements such as large impurities, sand, thin grains and weeds

are to be separated. Pre-cleaning differs from rough cleaning in that this process is also able to separate products smaller than the main crop. Overall focus in terms of pre-cleaning is always on ensuring a product that subsequently stores well.
