

NdFeB Magnets

We are recognized as a prominent Manufacturer, Exporter and Supplier of high-grade NdFeB (Neodymium Iron Boron) Magnets. Less prone to chipping, NdFeB Magnets exhibit higher unit magnetic properties than other magnets. Small in size and light weight, NdFeB Magnets are considered for magnet coating, plating, or suitable surface treatment. You can purchase quality-assured NdFeB Magnets from us. We are capable of delivering all orders on time.

Product Details

- Application = Electrical Use, Industrial Use
- Surface Finishing = Polished
- Features = Durable, High Coercivity, Incorporated With High Anisotropic, Modern Anisotropic, Prefect Finished, Robust Construction, Rust Proof, Strong & Rugged

Business Type	Manufacturer, Exporter, Supplier, Retailer
Size	100/50/10, 120/60/15, 160/80/25, 180/100/30
Diameter	0-50mm, 100-150mm, 250mm, 50-100mm
Thickness	0-10mm, 10-20mm, 30-40mm, 40-50mm
