

Magnetic Traps

We are a reputed name engaged in offering the best quality Magnetic Traps to our customers. The Magnetic Traps we make available are sturdy, which can be used for liquid and slurry materials. We are backed by a team of experts, which ensures these traps are intricately designed using high-grade raw materials and cutting-edge technology. These Magnetic Traps have compact size and high magnetic ability. Contact us, for reasonable prices and timely delivery.

Details :

They are meant to suit heavy duty bulky liquid line flow structures

The position of the magnet tubes is made in such a manner that the captured tramp metal particles travel to the back of the tubes where these stay protected from wash off till the tubes are made clean and thereby protecting the product's purity and preventing the abrasive wear, prevents pumps from jamming, reduced damage and maintenance to mixers, refiners, filters, pumps etc.

And hence assures a product free of iron contamination

Product Details

- Condition = New
- Finishing = Coated
- Features = Blow-Out-Proof, Casting Approved, Corrosion Proof, Durable, Good Quality
- End connection = Butt Weld, Flanged, Screwed, Socket Weld Ends
- Number of ways = 2way, 3way, 4way

Business Type	Manufacturer, Exporter, Supplier, Retailer
Size	1.1/2inch, 1.1/4inch, 1/2inch, 1inch, 2inch, 3/4inch
Material	Metal
Pattern	Plain
