

Technical Specification Impact Pulveriser

MITACHEM MPI Impact Hammer Type Pulveriser machine is specially designed for low maintenance, low noise, higher mesh. The machine is highly efficient with the air classifying system. The machine has big advantage of having in-built air blower for keeping material cool. It has fully crushing chamber with liner that make grinding motion working faster.

We have specially designed DUST FREE grinding system with the best result.

SPECIAL FEATURES

- Easy Starting
- Low Noise
- Air Cooling Device (available)
- Robust C.I. Construction
- Increased Powder Pluffiness

SPECIFICATION CHART

MODEL	POWER	INPUT MATERIAL SIZE	FEEDING SYSTEM	CAPACITY TO GRIND	SIZE IN mm (inch)		
					L	W	H
8" MP1	3 H.P.	Up to 10 mm	Manu./Auto	5 to 50 kg	1750 (69")	750 (30")	1800 (71") + Baloon
12" MPI	7.5/10 H.P.	Up to 20 mm	Manu./Auto	20 to 200 kg	2000 (79")	900 (36")	2100 (83") + Baloon
16" MPI	12.5/15 H.P.	Up to 25 mm	Manu./Auto	50 to 300 kg	2000 (79")	1000 (39")	2500 (98") + Baloon
20" MPI	15/20 H.P.	Up to 30 mm	Manu./Auto	50 to 500 kg	2500 (98")	1250 (49")	3000 (118") + Baloon
