

Suction Strainer

Femco suction strainers is used on the intake side of the pumps so as to strain contaminants which could cause pump damage.

The SF series starts from a flow of 5 GPM to 300 GPM. Custom suction strainers can be designed and built as per customer input for specific requirements.

Model no.	Connections	Flow rate literss/min	Micron Rating	type of housing	Filter Media
SF 5 G	G 3/4	20	80	aluminium alloy, Carbon steel or nylon	Stainless steel, brass, Phoper Bronze
SF 10 G	G 1	40	100		
SF 20 G	G 1 1/2	80	120		
SF 40 G	G 1 1/2	160	150		
SF 60 G	G 2	240			
SF 90 G	G 2	360			

SF 120 G	G 2 1/2	480	200		
SF 240 G	G 2 1/2	960	350		
SF 300 G	G 3	1200
