

Chillers :

CORE represents Daikin that's a quality brand the commercial market knows and trusts. Together with Daikin we deliver engineered, flexible solutions for commercial, industrial and institutional HVAC requirements with reliable products, knowledgeable applications expertise and responsive support.

The product range comprises of:

- Centrifugal Chillers with range and features as below :-
 - Wide range of capacities and efficiencies
 - Single compressor: 300 TR to 1,300 TR
 - Dual compressor: 600 TR to 2,560 TR
 - Environment friendly refrigerant
 - Lower noise level
 - Better part load efficiency
 - Option of DOL, Star Delta, Soft Start or VFD
- Screw Chillers with range and features as below :-
 - Most reliable Single screw
 - Wide range of capacities and efficiencies
 - Water Cooled Screw Chillers – 35 TR to 625 TR
 - Air Cooled Screw Chillers – 30 TR to 545 TR
 - Option of Environment friendly refrigerant R134a or R407C
 - Better part load efficiency
 - Option of Star Delta or Soft Start
- Scroll Chillers with range and features as below :-
 - 2 TR to 45 TR
 - Brazed Plate Evaporator
 - Compact Modular Design
 - Easy installation
 - Better Part Load efficiency
