

Grill Magnet

Product Description :

Grill magnets are constructed from magnetic filter bar, stainless steel and have a satin finish, then fixed onto a framework. The magnetic filter bar is made of permanent magnets and stainless tubes with special magnetic circuit. When liquor containing iron/steel substances passes through the framework, the iron/steel substances will be attached onto the surface of the filter bars. These units are used for separating iron/steel substances in liquor and apply in various fields such as chemical industry, medicines, sanitation, textile, smelting, machinery and foodstuffs etc. So that your equipment and facilities will be in a good state and products will be safe.

Round Grate :

Model No.	Dia (inch)	Quantity of bar	Part No.	Dia(inch)	Quantity of bar
BM-004	4	2	BM-020	20	10
BM-008	8	4	BM-024	24	12
BM-012	12	6	BM-028	28	14
BM-016	16	8	BM-032	32	16

Square Grate :

Model No.	Square A=B(inch)	Quantity of bar	Part No.	Square A=B(inch)	Quantity of bar
BM-004	4	2	BM-020	20	10
BM-008	8	4	BM-024	24	12
BM-012	12	6	BM-028	28	14
BM-016	16	8	BM-032	32	16

Types :

- Round Grill Magnets
- Rectangular Grill Magnets
- Square Grill Magnets
- Self Cleaning Grill Magnets
- Tramp Iron Separator
- Iron Separator

Features :

- Easy to clean
- Suitable to be used in high temperature
- Resistance to demagnetization
- Robustness
- Dimensionally accurate
- Easy handling
