

Jumbo Press

Most suitable for kraft , liner, writing and printing or speciality paper because of

- Efficient water removal.
- Higher Dryness achieved upto 50% in recycled finish after this press in comparison to conventional press upto 45%.
- Production increase by 18%.
- improves the physical characteristics of paper.
- Improves stiffness & breaking length of paper
- Less energy consumption (power and fuel) per tonne of paper

Press Roll Diameter	From 950mm to 1500mm
Loading capacity (Linear)	From 180 to 350kg/cm
Drive	Bottom roll only or Bottom & top roll both
Double felted blind drilled roll with cooling arrangement
