

Lifting Magnets

HELIX lifting magnets are used for a wide range of applications and available in permanent, electro-permanent, battery powered, and electromagnetic type. HELIX Lifters are compact, easy to operate and can be used on flat and round material.

Our large lifting magnets are designed for applications such as handling billets, bundles, bar stock, slabs, plates, structural, long bar stock, rail, hot material, coils, pipe rebar, radioactive material, slag, and more.

These magnets are commonly used in steel mills, scrap yards, loading docks, warehouses, foundries, shipyards, coil and pipe distributors, and other users of applicable steel products.
