

Biomass Dryer, Agro Waste Dryer, Waste Dryer, Mass Dryer

Agro Waste Dryer or Saw Dust Dryer / Bio Mass Dryer for pallet manufacturing process.

After drying from our supplied biomass dryer moisture level below 20%.

We are using best technology in which biomass dry with using optimize energy.

We are in business of manufacturing of Agro Waste Dryer or Saw Dust Dryer / Bio Mass Dryer. If you have require Agro Waste Dryer or Saw Dust Dryer / Bio Mass Dryer for pellet manufacturing process for that please specify following things.

1. The capacity of Agro Waste Dryer or Saw Dust Dryer / Bio Mass Dryer dryer in Ton per Hour.
2. Which heat source / fuel you want to use? - Hot air / diesel / Thermic oil
3. Detail technical specification of bio mass.
 - A. Which agriculture waste product you want to use.
 - B. Name any forest waste if you want.
 - C. Size of Agro Waste Dryer or Saw Dust Dryer / Bio Mass Dryer in length and thickness in millimeter.
 - D. Moisture in Agro Waste Dryer or Saw Dust Dryer / Bio Mass Dryer before drying and after drying.
4. Other specified requirement if any at your end.
