

Pulverisor

AN Ideal mill to grind anything like (Spices, Haldi, Mirch, Chemicals) The Pulverising is done in mid air by hammers, unlike friction grinding in other grinding mills. The ground meal, therefore is (Cold and Retains its flavours). The meal is then sieved and pneumatically carried to the cyclone for convenient bagging.

Model	Size	Capacity Shift 8 hrs.	Power
SEW - A	9" x 4"	5-6 Kg.	2 H.P
SEW - B	13" x 5"	15-20 Kg.	3 H.P
SEW - C	16" x 7"	45-50 Kg.	5 H.P
SEW - D	18" x 8"	80-85 Kg.	10 H.P
SEW - E	20" x 10"	200-225 Kg.	20 H.P
SEW - F	21" x 12"	300-350 Kg.	30 H.P
SEW - G	24" x 14"	400-450 Kg.	40 H.P
