

# Copper Strip

The specialized teams at our workforce help us engage in the export and supply of premium-quality **Copper Strip Wire**. They are fabricated using exceptionally pure Copper in compliance with industrial norms and guidelines. They are highly acclaimed for their excellent thermal conductivity and high tensile strength. They are tested for their quality by professional auditors before dispatch to ensure optimum end user satisfaction. They are used in various electrical appliances and enable easy joining, soldering and forming. They can also be cut easily into shorter lengths. They are easy to use and maintain and incur low maintenance costs. Clients can avail them at reasonable prices.

## Features:

- Malleable
- Ductile
- Good conductor of heat
- Quality-approved
