DETAILS

Do you want to transport heavy freight and goods? Let us help you find the elevator with the right load-bearing capacity to meet your requirements. We've installed freight elevators in warehouses, shopping centers, industrial plants and more. We can help solve the complex transportation requirements with simple, flexible, durable, cost-effective products.

Light Lift offers a selection of standard features and finishes for passenger elevators. But sometimes something special is required.

When that is the case, Light Lift can work with you to provide a custom elevator design limited only by your imagination.

Contact your local Light Lift office for more information about our custom elevator capabilities.
