

Wet painting

Certain products and materials can not be powder coated like all wood and also some sheet metal products.

There are two wet lacquer boxes for these jobs.

We have a smaller box in the end room for special items that require extra high finish as well as a larger box, from varying doors to exhibits to trade fairs can be painted.

At Stallarholmsvägen 50 we can powder and wet paint goods up to 4.00 meters in length, 1.90 in height and 1.50 in width.
