

Vibrating Screen

International Wirenetting Industries Heavy Duty Wire Mesh Screens are specially manufactured for extremely rugged operating conditions in scalping, sizing or processing heavy abrasive materials such as ores, crushed stones, sand, gravel, metallic and non metallic minerals, coal slag etc.

We hail as the successful manufacturer and exporter of Vibrating Screen, which are available in a wide assortment of mesh sizes for meeting with the demands of a wide clientele. The products are widely used in chemical and construction industry for sizing stones, sand, gravel and ores, owing to their non reactivity towards acids and alkalis. We are specialized for handling bulk orders.

Specifications:

- Material: Stainless steel
- Size: As per customer

We manufacture the below screens in Spring Steel, Mild Steel, GI Wires and Stainless Steel to suite particular applications.

Screens are woven accurately to any mesh size and of any diameter wire or rod to meet your specific requirement.
