

3 Submersible Pumps

Suitable for 80 mm borewell. Sand proof motor design. All components are precisely machined to give you trouble free working. Simple assembly for servicing. Compact design. Noryl Bowl impeller with S.S. neckring.

Technical Specification

H.P. Range	0.5 H. P. to 1.5 H. P.
Operating Head Range	15 to 75 Meters
Operating Discharge	30 to 70 LPM
Operating Voltage Range	160-220 Volts single Phase
Rated Volts / Frequency	220 Volts / 50 Hz, +6% & -15%
Max. Temp. of Liquid	40°C
Max. Permissible amount of sand in the water	50 Grams / Cubic Meter Water

Features

- Suitable for 80 mm borewell.
- Sand proof motor design.
- All components are precisely machined to give you trouble free working.
- Simple assembly for servicing.
- Compact design.
- Noryl Bowl impeller with S.S. neckring.

Applications

- Domestic water supply.
- Gardens, farms and nurseries water supply.
- Housing, complexes and bungalows water supply.
- High rise buildings water supply.
- Small water works.
