

Air-to-Air systems

Minex

DETAILS

Minex is a complete solution for air-to-air heat transfer and recovery from ventilation and process air. Minex can also be used for cooling/dehumidifying air. Minex is suitable for **wall mounting** and is supplied complete with connections for spiral ducts or hoses. Minex's integrated aluminum flat plate heat exchanger can be removed easily for cleaning.

Minex can be mounted for both vertical and horizontal air flows. Available in **four sizes** for **airflows** between **100** and **5 000 Nm³/h**.
