

FLEXECO

- 💧 Save up to 30% on cutting fluids
- 💧 Save time & money on fluid handling
- 💧 Does not require any additional electricity or compressed air to work!

RECOVER the coolant that is normally WASTED

The FLEXECO Coolant Reclaimer recovers the cutting fluid drained from the chips into the Chip Collection Trolley. This cutting fluid is returned to the main CNC Tank for re-use.

The Venturi Tube part of the Coolant Reclaimer is connected to the pump with a 'Tee'

The Stainless Steel Vacuum Cup with Filter that sucks the coolant from the Chips Trolley

The Chip Collection Trolley where the Vacuum Cup is placed

- 💧 The Coolant Reclaimer is to be used on Machine Tools with a Chip Conveyor
- 💧 One Coolant Reclaimer will fit on each Machine Tool
- 💧 Small device that fits on the pump without needing a skid or frame
- 💧 Fit-And-Forget system

| Part No. | For Line Size | Inlet (female thread) | Discharge |
|----------|---------------|-----------------------|----------------------|
| FE-CR-A | 1" | 1" BSP | ¾" (Hose Connection) |
| FE-CR-B | ¾" | ¾" BSP | ¾" (Hose Connection) |
